

Unaided Eye 

- Venus at sunset all month
- Mars - Saturn - Jupiter “parade”
- Jupiter at opposition
- Using Corvus as a “pointer,” find the constellations Centaurus, Virgo, Coma Berenices, Canis Venetici, and Ursa Major!

Notes and Sketches 

Binoculars / Small Telescopes  

- Saturn-M22-NGC 6642 in the same field
- Mars and M75
- NGC 5139
- M68, M104
- The Virgo Cluster (yes, again! It’s worth it!)
- M94, M63, M51
